Web Development with jQuery

Introduction

This is a 1-day crash course that walks you through basic to advanced jQuery, a widely popular open source cross browser JavaScript library. Students will learn how to select, filter, and add animation using jQuery.

Audience

This course is intended for students who are familiar with HTML and CSS.

Pre-Requisites

Familiarity with HTML and CSS.

Course Format

Black Ninja courses are small by design. This allows for the instructor and students to interact more closely, and gives students opportunity to clarify concepts or raise questions as the training goes on.

Outline

Day	Module	Topic
	1	Introduction - why jQuery?
	2	HTML and CSS review
	2	jQuery Basics
	3	jQuery Basic Selectors
	4	jQuery Advanced Selectors and Filters
	5	Styling pages with CSS and jQuery
	6	jQuery Events
	7	Animation with jQuery
	8	jQuery UI
	9	Introduction to jQuery and AJAX

Working Environment

Black Ninja will provide the environment. Students will be using their own VMs when developing their web pages/websites.

Materials

Book and materials will be provided in this class.

Additional materials and resources will be provided as needed.
